

A photograph of three children in blue and black wetsuits running on a sandy beach towards the ocean. The child on the left is a young boy, the middle one is a taller boy, and the one on the right is a girl. They are all running away from the camera towards the water's edge. The ocean is a deep blue with white foam from the waves. The sky is a clear, bright blue.

“ PLASMA PROTEIN
THERAPIES HELP
ME PLAY WITH MY
SIBLINGS... LIVE WITH
ALMOST NO PAIN AND
BE AS CHEERFUL AS
HEALTHY CHILDREN.”

Justus, living with CVID

HOW IS YOUR DAY?

Making the difference with plasma proteins.
